DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Claims 17-78 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Tanaka et al '873.

3. Applicant's arguments filed 02/14/03 have been fully considered but they are not persuasive. See the explanations below.

The cited prior art is of record in the previous communication and its disclosures are as discussed therein. It is noted that in the interview of 01/14/03, Applicants proposed to limit the claims by including the language "consisting essentially of". However, The amendments herein proposed are inconsistent with the interview as indicated above.

It is the Examiner's position that the claimed characteristics of the PPS would be inherent in the prior art PPS, because the prior art PPS has the same formula (1) as claimed, and it is one having 100 mol % repeat units since patentees do not disclose of it having any other repeat units. However, a PPS having 100 mol % PPS repeat units meets the requirements of one having at least 70 mol % repeat units as claimed. The co-monomer units herein are random. Thus, it is the Examiner's position that the claims have features and characteristics as claimed, or characteristics not expressly disclosed would be inherent as explained supra.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See

Art Unit: 1711

MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
